Art Unit: 2757

1. Claims 1-45 are presenting for examination.
2. The abstract of the disclosure does not commence on a separate sheet in accordance with 37 CFR 1.52(b)(1). A new abstract of the disclosure is required and must be presented on a separate sheet, apart from any other text.
3. Claims 31 & 41 are objected under 37 CFR 1.75.
4. Although, applicant's claims meet the requirement of 35 USC 112/2nd i.e the meets and the bounds are determinable, the dependancy of the claims could be corrected. Claim 31 should depend on claim 30 and not on itself, and claim 42 should depend on claim 41 and not on itself. The applicant is also required to review all the claims and use the above recommendations as a guide and make changes as necessary. It is the best interest of the patent community that applicant, in his/her normal review and/or rewriting the claims, to take into consideration the editorial situations to make changes as necessary.
5. Claim 29 recites the limitation "wherein steps for dividing at least the applications" in line 1. There is insufficient antecedent basis for this limitation in the claim.
6. Claim 38 recites the limitation "wherein steps for dividing at least the applications" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 2757

7. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321© may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

8. Claims 1-45 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-20 of U.S. Patent No. 5758072. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the patent 072 teaches substantially the claimed limitations.

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Moustafa M. Meky whose telephone number is (703) 305-9697. The examiner can normally be reached on week days from 7:30 am to 3:30 pm.
